KEOTA HIGH SCHOOL STUDENT NEWSPAPER

## ATHLETE OF THE WEEK

By AIDAN ANDERSON

This week's Athlete of the Week is Kimberly Clarahan. Kimi is a new coming freshman runner on the KHS track team. Kimi is planning on being a sprinter and hurdler this season. She is most looking forward to competing in the shuttle hurdle.

This season, Kimi is trying her best to improve her time in the 100 meter hurdles. Her ultimate achievement in track this year is to make it to State.

Kimi's favorite thing about track is that it keeps her in shape. The funny moments Kimi has encountered in track is when people fall over.

We all wish Kimi and the rest of the KHS track team good luck this season.

## WHIP OF THE WEEK

By CAR SIN KINDRED

This week's Whip of the Week features Dakota Detweiler. He drives a Chrysler 200 S made in 2016 with 90,000 miles on it. The engine is a 2.4 L 4-cylinder with a red exterior and black interior. It gets 27 miles to the gallon.

The presets Dakota uses are 99.7 and aux. He does not know who the previous owner was. He paid \$18,500 for it on July 8, 2021. He added sub-woofers to the car.

His favorite things about this car are the heated seats and speakers. He can fit five people in the car "painfully" and the top speed is 120 miles per hour.

Dakota's best memory is putting in his subs and his least favorite memory is when he popped both right tires leaving Washington. He has only owned one car and he travels the most to school or Fareway. The two people who travel with him the most are Drew Sieren or his mom. He has taken two road trips in this car to Des Moines and Cedar Rapids. Dakota enjoys this car and he hopes he has it for many more years.

## Ag Construction project

By AJ SHEETZ

The Keota High School Ag Construction class is hard at work with another project for a customer. The class consists of Aidan Anderson, Dalton Dodd, Caleb Waterhouse, Caden Sprouse, and AJ Sheetz. The class is taught by Mr. Jamison. The project is to build a chicken coop while learning about hands-on tasks you will use in the real world. The chicken coop is being built for Levi Lyle. Some of the things the class is learning about are what types of tools can be used in certain situations, how to wire electricity in the building, and also precision and teamwork. The project is set to be done by the end of the school year.

Pictured is the progression that is being done to the chicken coop building. Plans for the coop include being done with it by the end of the school year.

## COACH OF THE WEEK

By DALTON DODD

This week's Coach of the Week is the junior high track coach and junior and senior high school science teacher, Ms. Jenny Hobbs.

She is looking forward to this track season because she has enough athletes to fill most of the events. She wants to see

every athlete improve this season, as well as see every athlete reach their personal best.

Hobbs says her ultimate achievement for this season would be that everyone is having fun. Her motto is "Don't cheat yourself, your team, or God."

Hobbs has been coaching junior high track for seven

The Eagle's Wing Staff would like to wish Coach Hobbs and the junior high track athletes the best of luck this season.
