

The Eagle's Wing

KEOTA HIGH SCHOOL STUDENT NEWSPAPER

ATHLETE OF THE WEEK

By DAKOTA DETWEILER

This week's Athlete of the Week is Colten Clarahan. Colten is a senior at Keota and plays for the Keota Eagles Golf team. This is Colten's fourth year playing golf. When asked what he wanted to improve on this season, Colten said, "lowering my score and fixing my slice."

This year, Colten says he is most looking forward to "winning the conference again this year." Colten said his ultimate achievement in this sport would be to make it to State as a team.

Colten's favorite part about this sport is that he enjoys some of the courses they play on and he likes playing with friends from other schools. A motto that Colten likes to use when playing this sport is "golf is deceptively simple and endlessly complicated."

Congratulations to Colten for being selected for our Athlete of the Week and good luck on the rest of his season.

WHIP OF THE WEEK

By CAR SIN KINDRED

Today's Junk or Jewel is Mr. McCombs' 2005 Nissan Titan. The truck was manufactured in 2005 and has 130,000 miles on it with a 5.6L Dodge engine.

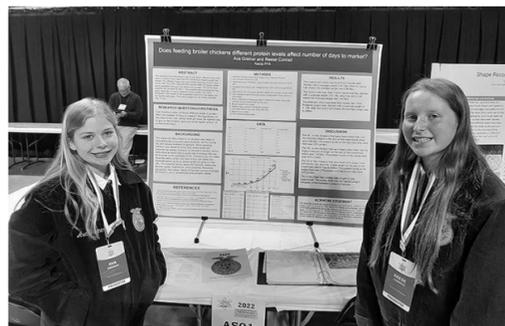

The color of the truck is gray and it gets 12 miles per gallon. The previous owner is someone from Chicago and he got it for \$3,500. He got it sometime in the middle of Covid.

His favorite part of the truck is that it is indestructible. McCombs can fit six people in his truck and it has a top speed of 75 miles per hour. His favorite memory with the truck is driving through toll booths without a license plate. His least favorite memory is buying tires.

If McCombs could name the truck anything it would be Steve. He has previously owned nine vehicles and travels mostly to school. He travels the most with his dog. He has taken the truck on a road trip to Keosauqua.

We hope his truck gets many more miles in the years to come.

Students place at science fair in Ames

Pictured are Ava Greiner and Reese Conrad after winning first place at the AgriScience Fair and second place at State Science Fair in the Animal Science Division.

By CAR SIN KINDRED

Ava Greiner and Reese Conrad participated at the AgriScience Fair and State Science Fair on Thursday, March 24, 2022. They worked really hard on this project and earned themselves first place at AgriScience Fair in the Animal Systems Division 4 grades 9/10 team

and second place overall in the Animal Science Division at State Science Fair. Reese and Ava tested the different protein levels and amino acids in chicken feed to find out what the best mixture was for chickens.

Congratulations to Ava and Reese for their achievements at AgriScience Fair and State Science Fair.

Pictured are Ava Greiner and Reese Conrad and their AgriScience Fair and State Science Fair project about broiler chickens.

10 FACTS ABOUT TANNER WATERHOUSE

By CALEB WATERHOUSE

- #1 His favorite food is pizza.

- Tuesday, April 19, 4:30 p.m. @ BGM-Boys Only
- Tuesday, April 26, 4:30 p.m. @ Sigourney
- Thursday, April 28, 4:30 p.m. @ Wapello-Girls Only

TEACHER OF THE WEEK

By DALTON DODD

This week's teacher spotlight is on Jennifer Lathrop. Mrs. Lathrop has taught for 27 years, with 22 of those being at Keota. She currently teaches

kindergarten. She began teaching preschool at Serendipity in Keota with Nadine Greiner. She then taught preschool at St. James in Washington. In 2000 she got hired at Keota.

Mrs. Lathrop currently lives in Oskaloosa. She previously lived in Keota for 27 years. She was originally from Oskaloosa, where her cousins and mom still live today. She attended William Penn University, where she received a Bachelor of Arts in Education. She later attended the University of Iowa to earn her early childhood endorsement.

Mrs. Lathrop's greatest inspiration was Nadine Greiner. "She allowed me to teach with

her and learn from her. I found through this experience how much I enjoyed early childhood," she said.

Mrs. Lathrop decided to go into teaching because her sister and cousins are teachers, so she switched to that after she decided she did not like business finance. Mrs. Lathrop's teaching style is based on using hands-on and real life experiences. She also hopes to provide a safe and fun climate for all of her students. The thing she is most looking forward to this year is being able to look back on students' growth. She said, "I love to see their reading skills emerge."

The toughest part of her job

this year is commuting 45 minutes each way. Something people might not know about Mrs. Lathrop is that she played in a rock band called "Shark Bait." She was the drummer. Another thing is that she loves sports. She participated in basketball, softball, and track. But her biggest accomplishment was winning best band in the nation at the White Water Wisconsin three years in a row. She says she has too many pets to name and she hopes to travel some day.

Mrs. Lathrop has helped influence many students at Keota throughout many years. The Eagle's Wing Staff would like to thank Mrs. Lathrop being this week's Teacher Spotlight.

COACH OF THE WEEK

By AIDAN ANDERSON

This week's Coach of the Week is Rod Hill. Mr. Hill is the coach of KHS golf. He is looking most forward to the warm weather that comes with the golf season, as well as the team having fun.

The golf team is trying their

most to improve their basic fundamentals this season. Mr. Hill's ultimate achievement for his team this season is to win back to back conference championships, as well as taking the team to State.

Mr. Hill has been coaching KHS golf for 10 years. Mr. Hill's

favorite thing about golf is that a person can win as an individual, as well as win as a team.

The reason Mr. Hill coaches the sport of golf is because it is a life-long sport that he really enjoys.

We all wish the Eagles golf team a great season.
